## PERSONAL STATEMENT

---

I worked several years in human resources and operations management, before pursuing my passion of web development. I taught myself for several months and joined a bootcamp. I am also highly teachable and easy to work with.

## EDUCATION

---

2015

**General Assembly, San Francisco**  
**Web Development Immersive**

2014

**Golden Gate University, San Francisco**  
**MBA – Management**

2012

**University of California, Davis**  
**BA – Sociology: Organizational Studies**

## SKILLS

---

JavaScript	Bootstrap
jQuery	SQL /PostgreSQL
Ruby on Rails	Bcrypt/OAuth
MEAN Stack	Unity/Unreal/Quintus
HTML5/CSS3	Mocha/RSpec
C#	HRIS/ATS
Swift	Operations Management

## WEB DEVELOPMENT PROJECTS

---

**Extraterrestrial Escape** | [Live](#) | [GitHub](#)

- I built a Quintus-powered platformer game in four days to explore level design and backend functionalities
- Technologies used: JavaScript, Quintus, jQuery, jQuery Validation, Underscore, Node.js/Express, Bootstrap, AJAX, Bcrypt, MongoDB, Mongoose, Mocha, and Heroku

**atCon** | [Live](#) | [GitHub](#)

- I was the lead dev for a group of four, and in four days we built a social network web app for conferences
- Technologies used: Ruby on Rails, Bootstrap, jQuery, jQuery Validation, AJAX, Paperclip, AWS SDK, RSpec, LinkedIn API, Bcrypt, PostgreSQL, and Heroku

**Thimble Nightmare** | [Downloads](#) | [Live](#) | [GitHub](#)

- My first practice game. Proof of concept for next game. Closely followed official tutorial and pre-created assets
- Technologies used: Unity 3D, C#, Ruby on Rails, JavaScript, HTML5, CSS3, Bootstrap, Audacity, jQuery, PostgreSQL, and Heroku

**NightMaze** | [Downloads](#) | [Live](#) | [GitHub](#)

- A 3D survival horror shooter. My friend and I wrote a random maze-generating algorithm and built out the creepy atmosphere; think Quake plus Slender Man
- Technologies used: Unity 3D, C#, Ruby on Rails, JavaScript, HTML5, CSS3, Bootstrap, Audacity, BCrypt, jQuery, jQuery Validation, PostgreSQL, and Heroku

## EXPERIENCE

---

### General Assembly

**Web Development Immersive Graduate** | 2015-2015

- Interviewed by [Wall Street Journal](#) about my projects
- Created several MEAN and Ruby on Rails apps per week
- Pair programming, working with teams through project weeks, and GitHub workflow
- Applying new languages, frameworks, and libraries to assignments throughout the week, and for pet projects

### GHD Inc. / Conestoga-Rovers & Associates

**Human Resources Generalist** | 2014-2015

- HRIS & ATS: PeopleSoft, ADP, Taleo, e-learning, and legacy systems
- Process analyses and consolidation for company merger

### Bauer's Intelligent Transportation

**Account Manager** | 2013-2014

- Managed operations of the UC Berkeley bus system
- Project management to increase operational efficiency

### Berkshire Hathaway Homestate Companies

**Human Resources Assistant** | 2012-2013

- HRIS & ATS: ADP, SharedHR, Workday, and legacy systems
- Benefits and recruiting administration

### Specialized Transportation Services/Tipsy Taxi

**Director** | 2009-2012

- Responsible for all operations and finances
- Hired, trained, and mentored 30+ direct reports
