PERSONAL STATEMENT

I worked several years in human resources and operations management, before pursuing my passion of web development. I taught myself for several months and joined a bootcamp. I am also highly teachable and easy to work with.

EDUCATION

2015
General Assembly, San Francisco
Web Development Immersive

2014
Golden Gate University, San Francisco
MBA – Management / Information Systems

2012
University of California, Davis
BA – Sociology / Organizational Studies

SKILLS

People/Project Management	Swift
Business Analytics	HTML5/CSS3
Prototyping/ Wireframing	Bootstrap
Forecasting/Budgeting	Unity/Unreal/Quintus
JavaScript/ jQuery/AngularJS	SQL /PostgreSQL/NoSQL
Ruby on Rails/MEAN Stack	HRIS/ATS/CRM
C#	Recruiting/Hiring Decisions
C++	Operations Management

DEVELOPMENT PROJECTS

Extraterrestrial Excape | Live | GitHub

- I built a Quintus-powered platformer game in four days to explore level design and backend functionalities
- Technologies used: JavaScript, Quintus, jQuery, jQuery Validation, Underscore, Node.js/Express, Bootstrap, AJAX, Bcrypt, MongoDB, Mongoose, Mocha, and Heroku

atCon | Live | GitHub

- I was the lead dev for a group of four, and in four days we built a social network web app for conferences
- Technologies used: Ruby on Rails, Bootstrap, jQuery, jQuery Validation, AJAX, Paperclip, AWS SDK, RSpec, LinkedIn API, Bcrypt, PostgreSQL, and Heroku

NightMaze | Downloads | Live | GitHub

- A 3D survival horror shooter. My friend and I wrote a random maze-generating algorithm and built out the creepy atmosphere; think Quake plus Slender Man
- Technologies used: Unity 3D, C#, Ruby on Rails, JavaScript, HTML5, CSS3, Bootstrap, Audacity, BCrypt, jQuery, jQuery Validation, PostgreSQL, and Heroku

EXPERIENCE

General Assembly

Front End Development Evening TA | 2015-Current

- Assisting head instructor with teaching various front end languages, frameworks, and libraries
- Leading discussion groups/stand-ups on specific topics
- Offering one-on-one mentorship to students as needed
- Keeping tabs on students' progress

Web Development Immersive Student | 2015-2015

- Interviewed by **Wall Street Journal** about my projects
- Created several MEAN and Ruby on Rails apps per week
- Pair programming, working with teams through project weeks, agile development, and GitHub workflow
- Applying new languages, frameworks, and libraries to assignments throughout the week, and for pet projects

GHD Inc.

Human Resources Generalist | 2014-2015

- HRIS & ATS: PeopleSoft, ADP, Taleo, e-learning, and legacy systems
- Process analyses and consolidation for company merger
